

STAY WARM OUTSIDE

3 WAYS TO STAY OUTSIDE AS TEMPS COOL DOWN

SWITCH IT UP

Don't be afraid to switch up your usual outdoor layout to fit seasonal changes. How about adding a fire pit? Fire pits are everyone's favorite outdoor gathering spot. Or move your fire pit closer to your house so you use it more. Think about ways to rearrange your space so you use it more.

COVER IT UP

Your furniture and your space can help you decide whether to cover up some of your outdoor pieces or whether to stow it away. Having a sitting area easily accessible is key for taking advantage a day when the sun is shining.

SPRUCE IT UP

Add seasonally festive touches to your outdoor space to highlight the coming celebrations. Swapping out your pillow covers is a great way to quickly, easily and affordably transform your outdoor space.
